

AFFAIRS AT VIRGINIA BEACH LYNNHAVEN LOCAL ITEMS.

Brief Paragraphs Picked Up Here and There About the City—Coming and Going of People, Etc.

LOCAL NEWS ITEMS CONDENSED.

Dr. Barton Pitts has purchased the Perigot cottage of J. P. Jones, and is making considerable improvement thereto.

This excessively hot weather, more than ever, brings to our mind the need of a drinkin' fountain for horses, conveniently located in the center of our town.

J. V. M. Berkley has resigned his position with the R. P. Holland Co., and gone to Petersburg, where he has entered the employ of a large tobacco company. W. L. Taylor has taken his place in the Holland store.

We trust our readers will pardon our abbreviated news column this week. We are very much crowded on account of the Supervisors and Road Commissioners reports. We promise to make up the deficiency next week.

Considerable sport has been enjoyed lately by visiting sportsmen, fishing off the end of the flume to the ocean. We noticed a lady the other day landing a fish in a net, and her creditable feat. She was a little fishhooked and landed several fine roundheads, while we were looking on.

We received a telegram yesterday from N. J. B. Elderberg, the county agent for the Dept. of Agriculture, that he had delivered 50 cars in this county during the year, which closed Tuesday. He has fifteen orders yet to fill, and has six cars to deliver of these leaving July nine, on hand. This assures quick prompt delivery, on new orders and if you are contemplating purchasing a car we advise you to place your order at once.

Excessive rain has so freshened the water in Lake Bailey, that the fish are beginning to bite. As the tide has not been high enough, as yet, to have salt water from the ocean in the lake, the matter becomes serious, as there was considerable stench arising from the dead fish, but the town authorities got busy, and now every morning all the dead fish are picked up in mesh boats, and buried. High tides will soon come now, and the lake will be filled with a fresh supply of sea water. More fish will come in with the tides, and by next season, fishing in the lake will be as good as ever.

The Rt. Rev. Beverly H. Tucker, D. D., Bishop of the Diocese of Southern Virginia, will be the Celebrant at the special Communion Service to be held at Gallie Church, at 11:30 o'clock next Sunday a. m., Aug. 5th. Bishop Tucker will be assisted in the service by his two sons, Rev. Beverly H. Tucker, Jr., of the University of Virginia, and Rev. Herbert N. Tucker, of Boynton, Va. The preacher at this service will be Rev. Charles E. Woodson, of Vicksburg. A cordial invitation to attend this service is extended to the public.

All the teachers, officers and pupils of Gallie Sunday School are urged to be on hand promptly at 9:30, on Sunday morning, Aug. 5th, to hear a talk upon "Efficiency in Sunday School Administration," by an expert from a distant city. This expert was once a member of Gallie Sunday School. He is now Secretary and Treasurer of the largest Sunday School in one of the best known cities of the Middle West. The total enrollment in his school hovers eleven hundred pupils, so it can be seen that he has had experience from which he may draw. Come and find out who our illustrious alumnus is.

Helen Briggs, Electric Specialist.
The only specialist in the state removing superfluous hairs, warts, moles, etc., from the face, neck and arms by electrolysis exclusively. All treatments guaranteed to be permanent and without injury to the skin. Call and see her at 700-12 Paul-Gale-Greenwood Bldg., Norfolk, Va. Telephone 5268, adv.

Personal Mention of Some You Know—The Coming and Going of People Around Lynnhaven, Etc.

PICKED UP BY TIMES CORRESPONDENT.

There is scheduled for Tuesday evening Aug. 7, at 8 o'clock a debate in Temporary Hall upon the momentous question resolved: "That when man marries his troubles begin." The discussion will be brief and to the point. Messrs. Harry Lewis and E. H. Bunn speaking on the affirmative and Messrs. J. W. (ake and H. H. Hill on the negative. After the debate ice cream and cake will be sold for the benefit of the local Library Association. The public is invited.

Mrs. W. J. Simpson and son, Billie left Wednesday for Haines Falls, Catskill Mountains, New York to spend the summer months.

There will be preaching at the Episcopal Church, Sunday Aug. 5th at 11 a. m. Sunday School at 3 p. m. Ev. come is invited to attend.

Mr. Samuel Harnes has accepted a position in Portsmouth, with the Sea Board Air Line Ry.

Mrs. W. R. Payne has moved to Portsmouth to be with her husband who has a position with the Sea Board Air Line Ry.

Mr. J. T. Whitehurst and Mrs. Lida Thomas spent Tuesday in Newport News with Mr. Geo. Whitehurst of the 4th Va. Regt., who expects to leave soon for Alabama.

Mrs. Mattie Boykins who has been spending several weeks with her daughter Mrs. Chas. Carson returned to her home in Norfolk Tuesday. Mrs. Mack Fentress, Jr., had the misfortune to nearly sever the first finger of her right hand off, Sunday night while opening a glass jar of fruit.

Mrs. Lillie Robertson who was taken suddenly ill Sunday night, has improved.

Mr. and Mrs. Hugh Moore, who have returned home Monday from Back Bay, where they have been spending a week with their daughter Mrs. A. L. Jones.

Mrs. Evelyn Jones of Little Neck who has been spending a couple of weeks with friends in Norfolk returned home Monday.

Mrs. Evelyn Jones, formerly Taylor and Mr. H. E. Harnish of Albemarle spent the week at the home of Mr. J. T. Whitehurst.

Mr. Alonzo Bailey and daughters, Mrs. Bailey and four, left Saturday morning for a week visit with relatives in Philadelphia.

Miss Roxie Robertson left Thursday morning for a visit in Isle of Wight county Va.

Miss May Sawyer was called home Monday to attend her mother, Mrs. Emily Woodhouse who was very ill. As Mrs. Woodhouse is much improved, Miss Sawyer has resumed her duties at H. C. Gilbert's store.

Miss Edna Davidson spent the week end at her home near Richmond.

Miss Fannie Madren and Ethel Wright of Elizabeth City, N. C., who have been spending a week with Mrs. Jas. Carson returned home Monday.

Oceana.

Mrs. Ralph Moore who has been visiting her parents Mr. and Mrs. A. S. Woodhouse left Friday morning to join her husband in Philadelphia.

Mrs. Lucinda Jarvis has been spending several days in Norfolk.

Mr. G. M. Beebe and daughter, Miss Doris are visiting Mr. Beebe's mother in Concord, N. C.

Miss Thelma Bridges returned to her home in Margateville, S. C., last Saturday.

Mrs. Lane Crockett of Brookline, Mass., is visiting her niece Mrs. G. M. Beebe.

A large number of men and teams from this section are now employed at Pine Beach. The long rain, followed by the severe hot weather has ruined most of the farm crops and the farmers are glad to secure employment elsewhere.

Stock Pens for sale. W. H. Brock, Oceana, Va. adv.

Letter From Susan Anne.

Dear sister,
As I told you tuesday day I wanted to have the last word for the primary on the road question. You know it is a woman's file and the Good Book says that "Verily, it is just as easy for a needle to walk in a camel's eye as for a lie to be behind word with a woman."

Now, there has been a lot said in your paper, at the meetings of the Nat. Keg Clubs and so forth but the road matters but I haven't heard of the action that has been proposed that is my letter than we have this, large all these years. The time has now come when we have got to have a better one and we are going to have it.

This county has every year, a certain number of road "shovelers" who spend the summer months in the road. It is a simple way when you get down and look at it without political specks on it. All there is to it is for the Supervisors to hire a man to spend the money on the roads and if he don't make good for him and get somebody who can. All that is necessary is for the Supervisors to hire a man to spend the money on the roads and if he don't make good for him and get somebody who can. All that is necessary is for the Supervisors to hire a man to spend the money on the roads and if he don't make good for him and get somebody who can.

You will hear the excuse that the roads are high and scarce, glory be, but it is so in every other county. The Princess Anne road is not any better than the other roads. The roads are high and scarce, glory be, but it is so in every other county. The Princess Anne road is not any better than the other roads. The roads are high and scarce, glory be, but it is so in every other county.

In this county there are about a dozen men with teams that have been hired to do the road work. They are hired to do the road work. They are hired to do the road work. They are hired to do the road work.

Mr. and Mrs. Hugh Moore, who have returned home Monday from Back Bay, where they have been spending a week with their daughter Mrs. A. L. Jones.

Mr. and Mrs. Hugh Moore, who have returned home Monday from Back Bay, where they have been spending a week with their daughter Mrs. A. L. Jones.

Mr. and Mrs. Hugh Moore, who have returned home Monday from Back Bay, where they have been spending a week with their daughter Mrs. A. L. Jones.

Mr. and Mrs. Hugh Moore, who have returned home Monday from Back Bay, where they have been spending a week with their daughter Mrs. A. L. Jones.

Mr. and Mrs. Hugh Moore, who have returned home Monday from Back Bay, where they have been spending a week with their daughter Mrs. A. L. Jones.

Mr. and Mrs. Hugh Moore, who have returned home Monday from Back Bay, where they have been spending a week with their daughter Mrs. A. L. Jones.

Mr. and Mrs. Hugh Moore, who have returned home Monday from Back Bay, where they have been spending a week with their daughter Mrs. A. L. Jones.

Mr. and Mrs. Hugh Moore, who have returned home Monday from Back Bay, where they have been spending a week with their daughter Mrs. A. L. Jones.

To The Voters of Princess Anne County.

Aug. 7th you are called on to take a citizens part for the betterment of your county and state by going to the polls and casting your vote for every State officer (except State Senator) from the Governor down. Now, a good citizen you should try and pick out men of ability, honesty and integrity. Men that will steer the good "Old Ship of State," in the proper direction. Men that will be on the alert to do the most good for the least money, men that are God fearing and God loving. I am told that they spend about eight millions of dollars on our public schools alone. Now, this money, if properly managed should do a world of good. I believe there is room for improvement, and shall endeavor to bring it about. I think our schools are the most important point of our government, for it prepares our children to be good citizens.

There is no use of having good schools unless there is a way to get to them, therefore good roads are the next important. Now, twenty-five years of experience with the Supervisors has taught us that this is not the proper mode. Then we must devise some law that will remedy it, and my advice is to try and get a law as near the one that I published in the Princess Anne Times two weeks ago, as possible, as that has been tried and proven very successful. Dr. Snead says in his letter to the Times, that he would repeal the "Baum Road Commission Law," as soon as the legislature meets, if he is elected. Now he comes out in another letter to the Times telling just what kind of a law he would pass, and strange to say it is identical with the Baum road law except in the wording of it—the meaning is just the same. He too says, "The roads of Princess Anne have too long been a secondary consideration." Why didn't he say by whom? Was he afraid to say by the Board of Supervisors? Which is true, for they are the only ones that have had the keeping of our roads for almost twenty-five years. I wonder if Dr. Snead will undertake to defend the last ninety days the Supervisors of this district have done in the road which was from Jan. 1st, 1916, to Apr. 1st, 1916, just ninety days, and spent a three thousand dollars which was at the rate of one thousand dollars a month, or thirty one dollars and eighty cents a mile for the ninety-four miles in this district. Now I say, I do not mean to say spent, I do not mean to say spent on the roads, for if it was it did not show, and he certainly did not buy any teams, tools or anything to do the work with.

If you will take the trouble to go to the Court House and find out what our road tax is, Mr. R. L. Smith told me on July 16th, that the Seaboard Road Tax was six thousand dollars. Then if that be true, and Mr. W. P. Griggs only got three thousand dollars on or about Apr. 1st, 1916, it certainly is up to Dr. Snead or Mr. Smith to tell the taxpayers what he did with it. There was one half of the 1916 road money gone in just ninety days and no visible work to show for it. I reckon it's like Mr. James Fisk, of New York City, who

used to tell people who asked him where his money went to, would always tell them "It was gone where the woodbine twined, the turtle dove moaned, and the whankadoodle cryed when it was first born." So I reckon our three thousand dollars of 1916 road money went the same way.

Now suppose Mr. Smith had been bonded and required to make a sworn report to the Court every thirty days do you suppose he would have dared to have squandered that much money in that short time with not thirty cents worth of good done on the roads. Dr. Snead's letter in the Princess Anne Times of May 27th gives what he calls a skeleton of a road law and so outlined, is exactly like the Baum Road Commission, except the wording. He uses the word Road Supervisor instead of road commissioner, as the Baum law does; he sees the need of bonding them as the Baum law does; he sees the need of a report as the Baum law requires. The Baum law pays them one hundred and fifty dollars a year. He leaves this up to the Supervisors, and who knows who they will get or what they will pay them. Now, in Norfolk county they pay the Road Supervisors one thousand dollars a year. Why couldn't our supervisors do the same. What would a thousand dollars a year to a man that spends that much a month. I see also that Dr. Snead is in a very receptive mood, which means that he is ready and willing to put his skeleton in the closet and lock it up, that's if a majority of the citizens (men, women and children I suppose) approves of this road law or will go to the trouble of making a road law and send it to him to have enacted into law.

I will tell him right now that Mr. R. L. Smith, of Lynnhaven, just wants him to repeal the Baum Commission Law, and not pass any road law but let him have full control of the roads and the money and it will be like the legislators did in North Dakota. When the farmers asked for State aid to protect them from the Elevator Combine that was robbing them of their grain, they were told to go home and feed their pigs. They went home and fed their pigs and got the wages out finding each other too, for they formed a farmers' party, and the next election every man in office from Governor down was a farmer. Abraham Lincoln said, "You can fool some of the people all the time but you can not fool all the people all of the time." Now I am not fighting men but I am fighting measures. I am glad to say I have no skeletons. I have my anatomy in my head right now and don't need any skeleton for mine, and I don't believe he can scare the people with this skeleton business either. They have cut their eye teeth, they have paid for their hominy and paid dear. They have made up their minds that skeletons are the bones of the dead and they don't want any dead man to represent them. They want a real live man, that sees some things one that sees them as they are and have a remedy for them, one that live on the roads and knows the real need of good roads over that mixes with the children and see the need of better schools and

better roads to get to school. He sees our people taxed to teeth and don't know where their taxes go after they pay them. If elected I shall come near finding out. I am like old David Crockett "first see you are right then go ahead." Suppose one of our Generals on the eve of a great battle told down the line message that he was in a receptive mood and had a skeleton of a plan, but before he attacked their enemy, he wanted his men's idea. What would men think of his ability. No gentlemen, you want a man of action and deeds, not a man that's afraid of his shadow. I have fought for you before and I saved you over \$200,000.00. I fought the land grangers that had served four hundred notices in this county on our people at a sum of five dollars a notice. I employed a lawyer and ran the man out of the State that had the notices served. I had some delinquent taxes paid to the State that had been in the clerks office for eight or ten years and clear the title of the property, by so doing of a lot of property in this county. I believe I have done as much for this county as any other man in it; and if placed in a position will do more, upon these grounds I ask your support I will appreciate it if give it in the primary on Aug. 7th. Dr. Snead has seen "The hand writing on the wall."

Very truly,
DR. P. F. J. MILLER.

Kempville.

Miss Florence Nuckols of Herbert's, spent the week end as the guest of Miss L. L. Latham, Smith's.

Miss Julia Smith, left Sunday for Norfolk, where she will spend a week visiting her sister, Mr. Lloyd Smith.

Tom Jarvis, of Diamond Springs, was the week end guest of John Alfriend.

Misses Florence Nuckols, Pauline Smith, and Lillian Wood, returned Sunday in Norfolk.

Master Hunter Rawlings, Jr., and Miss Elizabeth Rawlings, of Norfolk, arrived Sunday to spend a month visiting their grandparents, Rev. and Mrs. R. J. Alfriend.

The Episcopal Sunday School will hold their annual picnic at Virginia Beach, on Wednesday, Aug. 8th. If further notice is not given, all who attend are requested to be at Euclid Station, at 9:30 a. m., to take the car, and to be there at 10:00 a. m. This picnic will include the Sunday School of Dominion P. E. Church, also.

The material for building a dining room to the Episcopal Parish House has arrived and work will begin soon. The fund for building this addition was raised by the efforts of the rector, the Ladies' Guild and popular subscription. It will be used for serving refreshments in after entertainments, and as a place of recreation for the young people.

Misses Margaret and Katherine Whitehead, spent the first of the week in Norfolk, visiting relatives.

Mrs. C. C. D. Sears attended the dance at Virginia Beach Casino Saturday.

Miss Ethel Peters spent Saturday in town.

The marriage of Mr. Clyde Abston of Ravenna, and Miss Robbins, of White Duck, will take place Wednesday at Donation Church, and the ceremony will be performed by the rector, Rev. R. J. Alfriend.

Miss A. D. Newcomb was in Norfolk, on Monday.

Miss Eleanor Bryant was hostess at a very enjoyable birthday party Monday, in honor of her ninth birthday. Games and motoring were enjoyed, and refreshments served. Those present were Mrs. J. S. Caraway, Mrs. R. H. Bryant, Misses Frances Newcomb, Willie Smith, Helen Waterhead, Katherine Whitehead, Virginia Caraway, Mabel Overton, Marie Overton and Robert Overton.

Next Week's Primary

Before we print another issue of this paper, the Democratic candidates will be nominated for the different offices and for Member of the House of Delegates from each district. The campaign seems to center on the Governorship. The aspirants are Attorney General John Garland Pollard, Lieutenant Governor Ellyson, and Hon. Westmoreland Davis.

Mr. Pollard, from a non-interested viewpoint, seems to have the best qualifications for the office from his experience as Attorney General. He is regarded as a clean, honest and conscientious exponent of the principles of Democracy and should be elected without doubt. He has a splendid executive.

Mr. Ellyson has been the recipient of many high honors at the hands of his party and has always fulfilled the trust in a very acceptable manner. While he has quite a large following many think that he has had his share of political honors already.

Mr. Davis is a farmer and has done much toward advancing agricultural interests in this State. However, he is not in accord with the prohibition movement, and with the present attitude of the people of this Commonwealth, we feel that the position of the Governor should be clearly defined on the side of the majority.

Our county candidates for the office of delegate, Drs. Snead and Miller, are both citizens of the highest rank. They are men who have already done much for their county. We feel that it is unfortunate that two such good men should be pitted against each other, but console ourselves with the thought that no matter which is chosen we will be well represented.

In a nutshell the issues upon which they are making their campaigns are these: Dr. Snead pledges himself to present a bill to repeal the Baum Road Law if elected. Dr. Miller pledges himself to work for the passage of the best road law that his constituents present, and so there you are. Both advocate good roads and a conservative administration of county affairs.

No Attorneys.

The employment of legal assistance in exemption matters will not be countenanced in Virginia, according to a statement made by Governor Stuart. The Governor is informed that in one county in this State, the attorneys have agreed upon a price of \$10.00 for preparing claims for exemption. While illiterate persons might have difficulty in filling out the simple papers prescribed for perfecting such

claims, it is expected that they can secure the necessary assistance from friends or from members of the board.

The Bar Association of the State of Illinois has passed a resolution to the effect that it is not compatible with the ethics of the legal profession for its members to appear before exemption boards in this connection. The Provost Marshal General has commanded as follows:

"The investigations of local boards must be given the color of an original inquiry by agents of the government into the facts of particular cases and must not be given the cast of judicial proceedings. There is no proper field for the appearance of attorneys, and certainly no practice should be built up around the action of these boards."

A Communication.

To the Editor Princess Anne Times:

In reply to Dr. P. F. J. Miller's letter in your last issue I would like to say if he would go to the clerk's office and look over his records, he could get the exact statements and would not get so many of them wrong. I think he must get his information from his friends and not from the records. I would like to correct his statement that I had spent \$200 on the roads while I had them in charge. The correct amount was \$100 in and of \$200. Mr. Miller's story about Uncle Ben and his position is so far behind the times that I think the people would be afraid to send him to the legislature, thinking that would be his way in representing the county.

Dr. Miller's proposed scheme of administration appears to be a very further complicated Baum Road system with the addition of an advisory road board. It is my conviction that the simplest, most direct way of spending money on the roads is the best and Mr. Miller's system would be too complicated and elaborate to work out successfully. Dr. Miller has considerable strength in the fact that the commissioners are bonded officers. The truth is that they are only under the same amount of bond as the supervisors, \$2,500 each, and the commissioner of Kempsville has the handling of over \$10,000. I don't see why Dr. Miller should lead the public to think that the supervisors are not bonded. Very respectfully,

R. L. SMITH, Supervisor, Lynnhaven, Va.

 July 20.—U. S. sends American National army held.
 July 20.—Premier Lvoff of Russia resigns and Kerensky succeeds him.
 August 1.—Germans make peace passed food control and \$640,000,000 aviation bills.

WARNINGS ON THE DECEITFUL

Their Bodies on the Russian Highways Marked.

TRYING TO CUT OFF RETREAT

More Than Two Million Russian Soldiers On Retreat—Eight Army, Composed Largely Of Cavalry, In A Critical Position.

London.—A dispatch from the headquarters of the Russian Seventh Army says the situation is more hopeful. Parties among the retreaters are supposed to be retreating. These divisions of cavalry have taken positions across the whole front of retreat.

Deserters are shot and attempts to spread panic are suppressed by prompt execution. Deserters, spies and agitators who enjoyed complete immunity under the committee system are dead on the highways. A paper placed on the corpses reads:

"Here lies a traitor to his country."

Red badges and other symbols which accompanied the demoralization have almost disappeared.

It is conservatively estimated that more than two million Russian troops are steadily marching rearward. These constitute the Eleventh and Seventh Armies and their reserves. The Eighth Army, which is largely cavalry, and not included in the foreign figures, also is retreating and its position, says the correspondent, is extremely critical. The German strategy never effort to capture it while following the Eleventh and Seventh Armies and it looks as if the Eighth Army might be caught in a bag.

The notable growth in the number of enemy war prisoners escaping from Russia since the revolution is another indication of the attention of military authorities. According to published data from the beginning of the war until March a total of 5,349 escapes have been achieved, whereas during March 723 managed to get away. In April 2,518 and in May more than 3,000 escaped.

East of Hainan, on the Russo-German frontier, the Russians restored their position on the East bank of the River Zhong, says the official statement by the Russian War Department. Australian efforts to force a passage across the Zhong in the region of Pukhian and Podipic were frustrated.

China has been evacuated by the Russians under heavy pressure. On the Roumanian front fortified positions on the right bank of the River Padis, northwest of Sivas, were captured by the Roumanians.

An official statement issued says: "According to reports of secret service agents, the present German offensive was undertaken on the basis of detailed testimony concerning internal conditions of the Russian Army, which had been placed in the hands of the German chief of staff, Field Marshal von Hindenburg. It appears, had promised Emperor William that in two months he would put Russia out of action."

URGE SAUERKRAUT MAKING.

Big Cabbage Crop Causes Government To Issue Appeal.

Washington.—The rainy spell has resulted in such an enormous cabbage crop that the Agriculture Department has issued an appeal for the making of sauerkraut in large quantities in the interest of conservation.

The department reports indicate the cabbage have come into the great market centers in the last few days in unprecedented lots, and that thousands of heads are about to rot in cars and on wharves. The government food experts say sauerkraut can be made with little labor from fresh cabbage, producing a food endorsed as healthful and appealing.

FIRST IN NEW NATIONAL ARMY.

Harry Chapman Gilbert, Son Of White House Guard, Accepted.

Washington.—Harry Chapman Gilbert, 21 years old, son of a White House police guard, is the first man in the country to be accepted for service in the new national army, having passed his physical test and waived all claims for exemption. Gilbert last summer joined a Canadian regiment, the Two Hundred and Third Winnipeg Rifles, and was aboard a transport ready to sail when his parents intervened and had the State Department secure his release on the ground that he was not of age.

VEGETABLES NIPPED BY FROST.

Cold Wave Hits Northwest While East Sweaters.

Spokane, Wash.—Cucumbers and tomatoes in the Colville district, about 50 miles from here, suffered considerably from frost early Sunday morning, according to reports reaching here. Reports from Bittell also indicated that damage to vegetables in that section was due to the frost. In the numerous back yard gardens started this year as a war emergency.

STEAMER RIMS BIG TRANSPORT

American Soldiers Aboard Show Coolness and Pluck

ARMY VESSEL AT ANCHOR

Steamer Panama, Running at Full Speed, Catches Into the Saratoga, Soldiers, on Command of Officers, Leap on Transport.

An Atlantic Port.—Fourteen hundred khaki-clad "hammers had their taste of the perils of ocean travel today in a collision between their transport, the Saratoga, and the steamer Panama inbound from the Canal Zone.

The Saratoga was lying at anchor awaiting sailing orders from Panama, despite the fact that she had plenty of searoom, crashed into the transport on the port quarter. Instead of sinking away, the Panama crowded her bow in the last rapid, close situation just above the water line, and in that position accompanied the transport a distance of a mile and a half until the latter was beached on neighboring mud flats.

The Panama carried 150 passengers, including many women and children, who screamed when the accident occurred. No panic resulted, however, due to the presence of mind of the Panama's officers and men who quickly calmed their frightened passengers.

Soldiers Obay Orders.

Immediately after the collision the transport listed heavily and was thought to be in a sinking condition. A number of small boats, and tugs, in the immediate vicinity rushed to the assistance of the transport and assisted in taking off many of the soldiers and their families. After other transport, while the sinking vessel started on a thrilling race for safety.

The soldiers, obeying the commands of their officers, jumped across the narrow intervening space and boarded the Panama. Excellent discipline prevailed at all times, with the small, but no lives were lost, and the men bled only a few bruises and strained muscles as testimony of the encounter. The troops unhesitatingly obeyed a panic-stricken Panama and their whole demeanor in the face of extreme danger was solidly in the extreme.

As soon as the Saratoga was safely beached in shallow water and the soldiers who had boarded her transferred either to go to their posts or other duty that day, the Panama sailed away and proceeded to be berthed under her own steam. She received only slight damage to her bow, insufficient to necessitate any repairs. Although Capt. N. W. Mobray, commander of the Panama, refused to make any statement to the newspaper, the German chief of staff, Field Marshal von Hindenburg, it appears, had promised Emperor William that in two months he would put Russia out of action."

Officers and passengers alike were unanimous in their opinion that the entire blame of the accident should be placed on the Panama. In bright sunlight, without traces of fog, the Panama was passing in full speed ahead to land her passengers and to finish a record run from the zone.

75 PER CENT. PASS IN CHICAGO.

Great Number Of Draft Rejection Due To Weight and Vision.

Chicago.—Seventy-five out of every hundred young men in Chicago thus far examined for the national army have passed the physical tests. Statistics announced showed that of 248 per cent. rejected the greater number failed to meet weight and vision requirements, with that fact the reason for the next largest number of exemptions.

ALIEN DRAFT FAVORED.

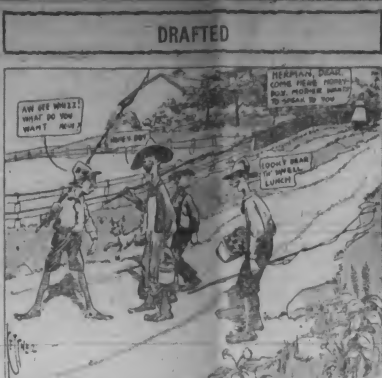

Foreign Relations Committee Reports Chamberlain's Resolution.

Washington.—With President Wilson's endorsement, the Foreign Relations Committee has favorably reported Senator McCumber's resolution operating the way by treaty negotiations for drafting alien subjects in this country into the American Army. Senator Chamberlain presented his resolution for draft without negotiations to the Senate with the unanimous approval of the Military Affairs Committee.

CHURCHILL RE-ELECTED.

Body Bats Prohibitionist And Laborists In Dundee.

London.—Winston Spencer Churchill was re-elected member of the House of Commons for Dundee, the by-election being made necessary by his recent appointment as Cabinet post. Mr. Churchill polled 730 votes. His opponent, Edmund Byrne, a Prohibitionist and Laborist, received 230 votes.

WAT CHURCHILL MAY REJECT ONE TO EXEMPT THEM

Provost Marshal's Office Flooded With Letters.

REFERRED TO LOCAL BOARDS ADD TO NUMBER EXEMPTED

Statement Says All Claims For Industrial Exemption Must Go To District Boards—Coal Operators Want Minors On The Job.

Washington.—A deluge of personal inquiries concerning future steps in the Army draft and of pleas from industrial concerns for exemption of their employees, drew from the Provost Marshal's office a statement that questions must be addressed to local boards and that claims for industrial exemption must go later to the district boards. No general class of workers will be exempted, Provost Marshal General Crowder told the coal production committee, which sought information whether miners could be left at their work. Appeal to the Provost Marshal's office from employers on behalf of their workmen can accomplish nothing, it was explained, as regulations promulgated by President Wilson govern all exemptions.

"The question of whether a man is exempted by his industry is a peaceful pursuit, that in military service is a matter to be taken up with the district board," said an announcement. And for that board to determine in the light of the circumstances surrounding each individual case. "Procedure in case of claim for discharge on the ground of industry or agriculture is explicitly outlined in the regulations. Only the upper or district board has jurisdiction over an industrial or agricultural claim for discharge. Before a man has a standing before the district board he must first be certified to it by the local or lower board as physically qualified for service and must have had any discharge claim made before the lower board decided adversely to him.

"He has five days after he is certified to the upper board in which to file claim for discharge and five days more in which to file proof. All claims for exemption or discharge, except claims for exemption on industrial or agricultural grounds, are decided originally by the local or lower board. "Most individual queries to the Provost Marshal's office come from men who are absent from their place of registration and who have been summoned for examination. Such a man should apply in writing to the local board in the district where he is registered and request an order directing him to appear for physical examination and possibly exemption or discharge claim before the board of the district in which he is now living. This request should designate definitely the board having jurisdiction over the district in which he is living; for example, "local exemption board, division No. 9, New York City."

WOMAN DANCER A SPY.

Japanese Matahari Sentenced To Death By France.

Paris.—The dancer, Marguerite Solie, known on the stage as a Japanese dancer Matahari, has been found guilty of espionage by a court-martial and sentenced to death. The dancer was formerly the wife of an officer in the Dutch Army, but had been divorced.

HARVARD CLUB TAKES TO BODA.

Big Organization In New York Injunctive Temporarily Bar.

New York.—The Harvard Club, with approximately 5,000 members, has established a soda fountain and temporary bar. It is perhaps the largest club of its kind in the country. This novelty in club life is due to the fact that already 800 of its members are in military and naval service and are forbidden by law to drink alcoholic beverages while in uniform.

WOULD DEPORT ANARCHISTS.

Immigration Officials Will Make Effort To Accused Are Freed.

New York.—If Alexander Berkman and Emma Goldman, the anarchists now being brought here from Federal prisons, are freed on their appeal from conviction on the charge of conspiracy to obstruct the Selective Draft law, steps will be taken to deport them, according to a statement by United States Immigration Commissioner Howe.

WILSON APPEALS TO THE WOMEN

Housewives Asked to Conserve Perishable Foods.

BIG LOSS MAY BE AVOIDED

The President Speaks To Women Of The Nation Through the Secretary Of Agriculture—Increased Production By The Farmers.

Washington.—A memorable appeal from President Wilson to the women of the nation, whether living in city, town or country, was issued Sunday through Secretary of Agriculture D. F. Houston to take immediate steps to avoid a threatened loss of vast amounts of perishable fruits and vegetables, especially in 24 States that have asked government assistance and information on the subject of food conservation.

The advance organization work has all been completed by a special committee working nationally under the direction of Secretary of Agriculture Houston and the most intensive campaign, especially in the 24 States in distress, will be conducted during the next three weeks. The President's letter follows:

"The WHITE HOUSE, Washington, July 25, 1917. Mr. Secretary and Gentlemen of the Committee.

"I am extremely desirous to commend your plans and to second your efforts to secure the conservation of our supplies of perishable food products. Our people are patriotic and their patriotism the farmers of the nation have an immediate and effective response to my appeal to increase production. Provisions toward them and we are not only the prospect of increased crops of a number of staples but also the certainty of a large production of fruits and vegetables.

"But increased production, important as it is, is only a part of the solution of the food problem. It is the first importance that we must settle down to the conservation of what we have. It is not only the prospect of increased crops of a number of staples but also the certainty of a large production of fruits and vegetables.

"But increased production, important as it is, is only a part of the solution of the food problem. It is the first importance that we must settle down to the conservation of what we have. It is not only the prospect of increased crops of a number of staples but also the certainty of a large production of fruits and vegetables.

DR. CANADA'S DENTAL ROOMS
526 Main St. Norfolk
Over Seely's Main St. Store. Opposite Victoria Hotel. Near Church Street.
I wish to state to the citizens of Norfolk and surrounding counties that I am now permanently located at my new office, 526 Main Street, near Church Street. I have been practicing dentistry in the practice of dentistry for 30 years, and have long established a reputation in Norfolk for the highest quality of work. My charges are extremely moderate. In fact I can save you money on any dental work which requires skill to have done.

Order Your Ford Now
Feeling that the Automobile buyers of this county should be advised as to conditions as they exist and apply to Ford Automobiles, I am giving this letter to the facts for their consideration.
The Ford Company arranged to build 50,000 machines during the year which began the first of last August and which will end the first of August 1917. The plain, simple fact is the American people have found out that the Ford is the best automobile regardless of price, and they want more than the factory can build, and under present war conditions it almost impossible for the factory to increase its output.
Another reason why the people in Princess Anne county are partial to Ford cars, is the fact that, I render them such service at a merely nominal price that they can own and operate a Ford just as easily as they can take care of a horse and buggy.
I have on hand at this date 30 orders for Ford cars, I am doing all I can to get 100 Ford cars by the middle of the first of August. I will be unable to deliver more than 12 of these before the first of August. This will leave me 24 orders on hand to be filled as soon after the first of August as possible.
Now let us consider what this means: I have positive information that no agent will be allowed to contract for more than his actual needs
